9	Bucks is a LARGE county, one wonders how such a service would work.	Jun 24, 2013 2:10 PM
10	Our county is too large to have one site. many individuals do not have transportation-and here in the northern county, public transportation is so limited.	Jun 24, 2013 1:43 PM
11	would need more than one location...transportation also a critical issue	Jun 24, 2013 1:15 PM
12	Would need several walk-in locations because of transportation challenges	Jun 24, 2013 1:04 PM
13	Community location should be accessible for people with disabilities & in a location convenient for public transportation	Jun 24, 2013 12:49 PM
14	Would the community location(s) be centralized? How would people get to this location? Transporation is a challenge, especially in Upper Bucks.	Jun 24, 2013 12:25 PM
15	location??	Jun 24, 2013 12:11 PM
16	there is very little area in Bucks that has a convenient location if you don't have a car.	Jun 24, 2013 12:03 PM
17	It would be great to have both!	Jun 24, 2013 12:00 PM

Q7. How valuable would it be for agencies and organizations that help people experiencing a housing crisis or homelessness to use one uniform and coordinated assessment, referral and data management system?		
1	Coming from an agency point of view; most agencies already have assessments, referrals, etc. and for them to have to change, learn, and implement a new one would seem like time that could be utilitzed in helping individuals in need would be elsewhere.	Jun 26, 2013 4:35 PM
2	standardization has pro's & con's	Jun 25, 2013 10:35 AM
3	Would streamline the process for agencies and clients.	Jun 24, 2013 3:40 PM
4	Agencies that have no restrictions to make sure the client gets help.	Jun 24, 2013 1:44 PM
5	again difficult and everyone competes for the elusive funding dollar	Jun 24, 2013 1:15 PM
6	I checked very because it would be nice but the different funding source expectations of the various providers MUST be addressed.	Jun 24, 2013 1:04 PM
7	different programs require different local/state/federal data reported	Jun 24, 2013 12:05 PM
8	I think it could get complicated depending on what kind of agencies are involved and what level/amount of information they need for an incoming referral.	Jun 24, 2013 12:02 PM

10	There is virtually no support for homeless individuals who do not fit into a special population such as having children, severe mental illness, substance abuse, etc. Not all agencies with access to HMIS utilize it to make informed services about unmet consumer needs. Better training about serving clients with multiple challenges and cohesive (vs fragmented) case management should be required. Some organizations are harming clients due to under-informed workers (for example, dismissing a clients mental health concerns).	Jun 24, 2013 1:29 PM

Q10. What is the greatest challenge we face in creating a better system for housing crisis response and homelessness prevention in Bucks County and how can we solve it?		
1	Lack of shelters, need a shelter of transttional aged youth, lack of supportive housing	Jul 3, 2013 11:22 AM
2	Finding the funding and staff to operate a hotline/drop in center. Then marketing the resource to those that will need it. Finally ensuring that the major agencies that are involved are collaborating and buying in to the new process.	Jul 3, 2013 10:40 AM
3	There are two major problems in regards to the housing crisis in Bucks County. First is the lack of affordable housing. Most of the people who end up needing affordable housing can in no way afford the upfront move in costs. The second major problem is a lack of emergency housing for people facing homelessness. Most organizations that are providing services to help with housing are overwhelemed by the needs and only have limited funds to give out. In order to solve the housing crisis I think that 3 things need to happen. First, greater awareness needs to be raised as to the reality and seriousness of this problem. Most of the people I talk to are under ther assumption that the government has sufficient low income housing for the homeless. Greater communication needs to happen throughout the county in regards to this problem. Second, the local government officials need to reasses how best to support the people who need low income housing. They need to understand that it is not simply a matter of providing cheap housing or providing funding to various people, projects, or organizations. What is essential will be to develop a system of support for those in need that will assess the root causes of their situation, and will provide them with continual support after they have found a new place. In short, we need to ensure that people are getting the support they need in order to ensure that their new housing situation is sustainable in the long run. Lastly, the community is an essential but often forgot about piece of the solution. Community members, faith based groups, and individual volunteers will be essential in providing the continual support for those in need. The root problems of the housing crisis stems from specific problems facing communities across Bucks County. As such, we should bring these problems to the attention of these communities and encourage them to find solutions.	Jul 3, 2013 10:08 AM
4	We need to rely more on outreach people (feet on the street) to better interact with individuals that are homless in the woods with addiction/mental health issues. We need another group of people to deal with homeless families or families about to become homless. 2 totally different groups of people that need to be handled in 2 totally different ways.	Jul 2, 2013 8:04 AM
5	not enouhg resources - actual transitional units and low cost housing	Jul 1, 2013 2:30 PM
6	Transportation is a huge problem in Bucks. We need more public transportation in the central and upper parts of the county so people can expand their job searches and housing options. We need more jobs with sustainable wages. Single parents can't work 2 jobs and be expected to be the best parent possible. We need affordable housing. Maybe cultivate more relationships with potential landlords. Maybe encourage more people to become landlords if there were some incentives for doing so - low interest loans to buy properties, casemanagement provided to those more difficult to place clients etc.	Jul 1, 2013 10:36 AM
7	Funding from the State.	Jul 1, 2013 8:29 AM

17	Funding for resources is a huge challenge, also better collaboration between program workers.	Jun 26, 2013 1:48 PM
18	I think the greatest barrier is affordable housing options for the homeless. It is extremely difficult to maintain housing on SS income or earned wages in Bucks County. Housing should be no more than 1/3 of a person's income, typically in BC it is 2/3 of a person's inocme. By engaging private landlords and educating them on the issues facing homeless individuals and families maybe more affordable housing will become available.	Jun 26, 2013 11:49 AM

68	Lack of immediate housing (shelters) or affordable housing options. More affordable housing options, subsidized housing, and more local shelter options.	Jun 24, 2013 1:23 PM
69	Transportation/Accessibility to services. Provide transportation to extreme cases.	Jun 24, 2013 1:17 PM
70	Bucks County does not have enough affordable, accessible housing. Bucks County needs to either acquire or build affordable, accessible housing and also get rid of the "not in my backyeard" mentality.	Jun 24, 2013 1:15 PM
71	needs to be centralized with out the egos of the different agencies	Jun 24, 2013 1:15 PM
72	1. Greater (federal) funding for subsidizing rent. 2. Reformation of federal rules that bar many in need from receiving housing assistance.	Jun 24, 2013 1:15 PM
73	The high cost of housing in relationship to the income of person living in poverty impact all the various groups of persons affected by homelessness. If we could get more Section 8 vouchers in the county, it would be a significant help!	Jun 24, 2013 1:04 PM
74	Temporary and permanent affordable housing	Jun 24, 2013 1:01 PM
75	Lack of affordable housing throughout Bucks County. Full funding for programs and agencies that increases the stock of affordable housing, more pronounced need in Upper and Central Bucks.	Jun 24, 2013 12:49 PM
76	More affordable housing....Work w/ Habitat for Humanity to build some new structures w/ the help of the people who will be housed there.....	Jun 24, 2013 12:48 PM
77	communication between agencies.	Jun 24, 2013 12:47 PM
78	Finding appropriate housing and other needed services to help people recover and get education to allow them to work and support themselves	Jun 24, 2013 12:41 PM
79	Funding, proper skills and education working with those who need advocacy	Jun 24, 2013 12:36 PM
80	Transitional Sheters, emergency shelters, public transportation	Jun 24, 2013 12:30 PM

Q10. What is the greatest challenge we face in creating a better system for housing crisis response and homelessness prevention in Bucks County and how can we solve it?		
81	Flow through the system. How move people into housing quickly and/or prevent homeless, when limited affordable housing options.	Jun 24, 2013 12:25 PM
82	Lack of housing for low-income residents	Jun 24, 2013 12:25 PM
83	Funding to bring necessary services and having time to reorganize and critique the way we are currently 'handling' homelessness.	Jun 24, 2013 12:20 PM
84	More affordable housing	Jun 24, 2013 12:18 PM
85	Having permanent housing that is affordable so people can exit the 'non-permanent' housing in which they reside (emeregency shelter, transitional housing, homes of friends and relatives)	Jun 24, 2013 12:14 PM
86	Alot of people who are homeless have limited income or none and need transitional hosuing to help go from homeless shelter to housing. Housing too expensive and clients in process of social security need to leave emergency shelter before they can be successful with employment or social security. Need something in between that also accepts small pets	Jun 24, 2013 12:07 PM
87	Need more money, of course, and we need to work together on how that money is spent. Need to stop the "passing the buck" from agency to agency, make good referrals, work together to get it done.	Jun 24, 2013 12:06 PM
88	funding and emergency placement/shelter availability	Jun 24, 2013 12:05 PM
89	transportation is major	Jun 24, 2013 12:03 PM
90	The uniqueness of each and every individual/family's circumstances. At some point we need unified systems and responses, even though they may affect people differently (whether positively or negatively) becasue then we will at least have a starting point.	Jun 24, 2013 12:02 PM
91	coordinating services, too disjointed	Jun 24, 2013 12:01 PM
92	consistent knowledgeable accessible entry point	Jun 24, 2013 12:00 PM
93	Affordable housing	Jun 24, 2013 11:56 AM
94	Funding and community awareness. Many believe this only happens in Morrisville and Bristol; nowhere else in the County because it's wealthy. Not sure how to solve either issue.	Jun 24, 2013 11:55 AM
95	Lack of sufficient affordable housing and Section 8 vouchers.	Jun 24, 2013 11:54 AM
